

Perfect pH

Our **Fit and Forget** CO₂ system keeps the pool safe for everyone

Think tank

Hazard-free pH stabilisation – safer for staff and bathers

- **Fit and Forget system**

Designed to need virtually no input from you or your staff

- **Safer to use**

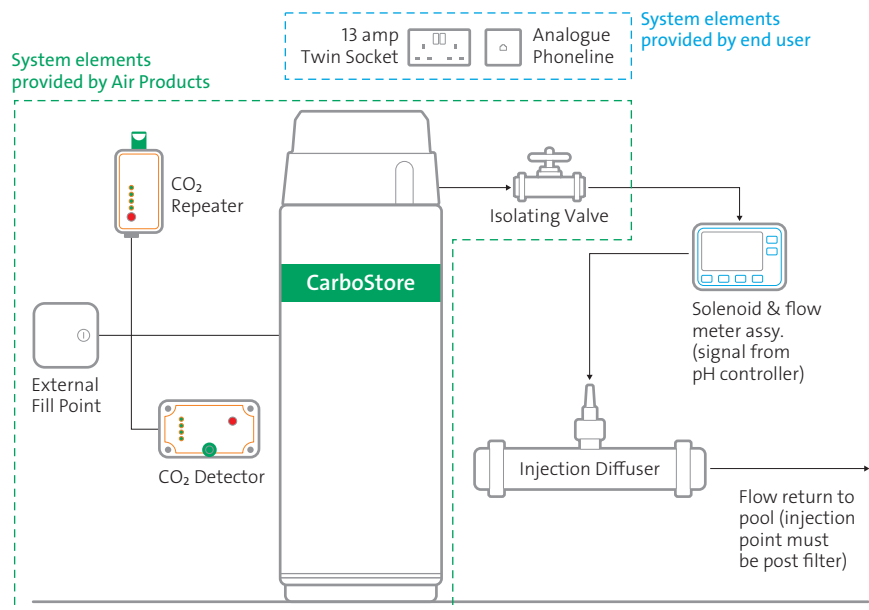

Our CO₂ system requires no manual handling, and it is inert, reducing the potential of hazardous chemical interactions

- **Self-managing solution**

Delivers a consistent level of pH, eliminating peaks and troughs

- **Reduced wear on equipment**

Reduced level of total dissolved solids means less pool and plant corrosion
